

Dear boaters:

As of June 1, 2020, the Rogers City Marina will be expanding the services it offers:

- Launch ramps
- Fueling
- Boat lift services (hydraulic trailer)
- Gin pole
- Pumpout services
- Transient and seasonal slips (electric and water available)
- Boater bathrooms and showers
- Laundry
- Fish cleaning station

One customer at a time will be able to enter the office, but the comfort station remains closed for now.

The breakwater lights are working, and the buoys have been set.

Though staffing is increasing, hours remain irregular and boaters should not expect consistent radio communications. Docking assistance is being provided when staff is available.

Those who need fuel and/or plan to slip at the Rogers City Marina are asked to call the harbormaster in advance on his cell phone at (989) 255-8671.
